About PyCon Hong Kong

For more than 20 years, Python has proven to be a highly effective programming language utilized across industries, service companies, research, and scientific fields for a wide range of tasks. This easy-to-learn programming language has bridged the gap between users and developers. With Python, scientists, engineers, finance professionals, designers, and individuals from various disciplines can swiftly develop solutions to complex problems, even without extensive programming expertise. Python empowers innovative software companies to tap into new markets by responding to user needs more rapidly than their competitors. Many universities worldwide have adopted Python as the standard language in numerous programming courses covering diverse topics.

In terms of organization, Python is produced and underwritten by the Python Software Foundation, the 501(c)(3) nonprofit organization in the United States dedicated to advancing and promoting Python. PyCon serves as the annual conference for the community involved in using and developing the open-source Python programming language.

PyCon HK is organized by a committee composed of members from the Hong Kong Creative Open Technology Association (HKCOTA), the Hong Kong Python User Group (HKPUG), and Open Source Hong Kong (OSHK). The conference will feature keynote presentations, a variety of talks, workshops, as well as community and sponsor booths.

We have received >60 proposals during the recently closed call for proposals. Alongside local submissions, we have also collected proposals from various countries including Japan, Taiwan, India, Australia, the UK, and the US. The program committees are currently reviewing these proposals, selecting topics that demonstrate professionalism and value. Similar to previous events, we have accepted proposals in multiple languages, including English, Cantonese, and Mandarin. These topics will be organized into 2 - 3 tracks for the single-day event.

The conference model consists of two main areas: (1) the Conference Room and (2) the Exhibition Booths:

- The Conference Room includes a Conference Theatre and a Function Hall, which can accommodate different audience sizes for presentations and workshops
- The Exhibition Booths comprise both reserved sponsor booths and community booths. Sponsors can utilize their booths to showcase their products and attract attendees, while the community booths provide a space for sharing ideas and facilitating discussions.

Our target audience includes data scientists, data engineers, IT managers, software engineers, and students. These participants are often stakeholders in the procurement process or responsible for reviewing solutions. PyCon HK provides a

natural environment for technical audiences to understand sponsors' products in depth. It also allows participants to share feedback and ideas with sponsors. Additionally, PyCon HK engages IT professionals with more opportunities. PyCon HK and the Python community are dedicated to advancing the international Python programming community.

By becoming a sponsor, your organization will have the following benefits:

- Matchmaking opportunities with local enterprises
- Marketing exposure through conference materials and media announcements
- Networking opportunities with highly skilled IT professionals

The conference has proven to attract participants usually scattered in their own different groups. By becoming a sponsor, your organisation will be able to build relationships with them. Please refer to our event web site at <https://pycon.hk>

History and background

Over 50 PyCons are hosted annually in various cities and countries worldwide, and PyCon HK is proud to be one of them.

The first PyCon HK took place on November 7-8, 2015, at Cyberport in Hong Kong. The conference theme was "Front-end, Back-end, Data Science, FinTech." The event issued a total of 204 tickets, with 168 attendees present. It featured 25 individual sessions delivered by 11 local and 9 international speakers. For more detailed information, please visit the event website at <https://www.pycon.hk/2015/>

PyCon Hong Kong 2015

Fast forward to 2023, PyCon HK has grown into a successful event, attracting more than 260 attendees and 19 speakers from around the globe. The conference now covers a wide range of topics, from programming fundamentals to the most advanced AI and data science developments.

Previous Sponsors and Participating Organisations

While we cannot boast of a long history, our conference has already attracted a number of significant players:

Sponsors

- Alvanon
- Amazon Web Services
- AXA Investment Managers
- Clover Health
- Elastic
- First Code Academy
- Gandi
- General Assembly
- HK01
- Hong Kong Cyberport Management Co Ltd.
- IBM
- JetBrains
- M-Labs Limited
- Microsoft Corp.
- Odd-e Limited
- Open Source Security Foundation
- Our Sky Limited
- Oracle Corp.
- PCCW-HKT
- Python Software Foundation
- Red Hat

Participating Organisations

- Hong Kong Creative Open Technology Association
- Hong Kong Python User Group
- Open Source Hong Kong

Supporting Organisations

- Agile Hong Kong
- CityU Apps Lab
- Codeaholics
- Cyberport
- Department of Computing Science, City University of Hong Kong.
- Hour of Code Hong Kong.
- Hong Kong Association of Computer Education.
- Internet Society Hong Kong.
- Hong Kong Machine Learning
- Lingnan University of Hong Kong
- AWS HK User Group
- Girls In Tech Macau
- 852dev.xyz
- Google Cloud - Google Developer Groups Hong Kong
- Japanese Raspberry Pi User Group
- PyLadies Tokyo
- PyCon APAC
- AI Society of HKU

Event Funding

An event of the size of PyCon Hong Kong incurs significant expenses, which can be broadly categorized into three areas:

- Venue and Infrastructure Expenses
- Financial Aids Programme for Speakers and Participants Travel and Accommodation
- Marketing cost
- Decoration Printing cost
- Event Tee Printing cost
- Administration Expenses

We sincerely request your support in sponsoring these expenses.

Speaker Topics

Conference welcomes a diverse range of topics, including but not limited to:

- Python in LLM, GenAI, Data Science, and Machine Learning
- Tools and Libraries for Python Development
- Web Development and Cloud Computing with Python
- Industrial Use Cases of Python
- Python for Education and Research
- Community Building and Open Source Contributions"
- Embedded system and IoT solution

PyCon Hong Kong 2024 Call for sponsor link is shown below:

URL : <https://pretalx.com/pyconhk2024/cfp>

Currently, Call for proposal extended to 22-July-2024.

PyCon Hong Kong 2024 Details

10th Anniversary

(Last updated: 12 July)

Date : 16-Nov-2024 (SAT)
17-Nov-2024 (SUN) *[Tentative]*

Venue : 16-Nov-2024 (City University of Hong Kong)
17-Nov-2024 (Sponsor's Venue) *[Tentative]*

Format : 16-Nov-2024 (Talks + Booths)
17-Nov-2024 (Development Sprint* + Workshops) *[Tentative]*

** Development Sprint is a teamwork to build some Python projects cooperatively. It features hands-on coding and engaging audiences.*

Talks:

- Regular session (30 mins) with Q&A
- Short session (15 mins)
- Lightning session (5 mins)

Workshops:

- 60 mins - 90 mins (Details **TBC**)

Development Sprint:

- 4 hours or more (Details **TBC**)

Booths:

- For sponsors to showcase their products and connect with attendees.
- For community organizers to share ideas and facilitate discussions.

Target No. of Attendees : 200 - 300 ppl

Target Audience :

- Data scientists
- Data engineers
- Analyst
- Solution architect
- C-Suite
- IT managers
- Software engineers
- Entrepreneurs / Founders
- Students
- Teachers
- Beginners

Sponsorship Packages & Benefit

Under no circumstances will the organisers divulge names or contact information of delegates.

		 Diamond	 Platinum	 Gold	 Silver	 Bronze

Alternative Sponsorship Options

In addition to the above sponsor packages, PyCon HK welcomes customized sponsorship options. Sponsorship entitlement can be displayed in the following areas as well. Please feel free to share any ideas or concerns from your team.

- Food & Beverage Sponsorship : e.g. sponsoring lunch, snacks, or coffee during the event.
- Education Sponsorship
- Travel & Accommodation Sponsorship : e.g. sponsoring air tickets or accommodation expenses for speakers, especially those coming from Western countries.
- Prize Sponsorship : e.g. providing prizes for a lucky draw when the audience completes the survey form or prizes for their favorite speaker session.
- Other Sponsorship options : this category is open to any additional sponsorship ideas or opportunities.

For further information, please contact us at pycon@pycon.hk . To apply for sponsorship, kindly fill out the application form provided at the end of this document.

Organisers

Hong Kong Creative Open Technology Association

This conference is organised by Hong Kong Creative Open Technology Association (HKCOTA). This association is a non-profit tax-exempt organization / charity (Reg.# 91/13580) which was founded in 2014 to promote Open Standards; Free and Open Source Software; Open Hardware; Free Culture Works, Open Content and Creative Commons.

Open Source Hong Kong

Open Source Hong Kong (OSHK) is a community in aim of advocacy and promotion on concepts and uses of open source, to organise meetups, seminars, conferences and other events in Hong Kong and Asia. Also, OSHK is an affiliate member of the Open Source Initiative (OSI) and a community member of Open Invention Network. OSHK encourages communication and collaboration of open source, open technology and open culture related communities in Hong Kong and the world.

We have over 3,000 subscribers in our mailing list. Our network covered open source developers, partners and users in Hong Kong and Asia.

Python Hong Kong User Group

Hong Kong Python User Group (HKPUG) was re-established in 2011 to act as a local user group for the international Python community. HKPUG organises local Python conferences and meetings, and an online community with over 2,000 members on Facebook and Meetup for group discussion and event announcements.

Terms and Conditions

1. By submitting a completed sponsor application form, all sponsoring entities ("the sponsor") agree to these Terms and Conditions for the PyCon Hong Kong ("the conference").
2. Sponsorship applications are handled on a "first come-first served" basis. Sponsors should be committed to Python and Free/Open Source Software deployment and improvement, and supportive of the conference organisers' mission. The conference retains the right to reject sponsors that it deems inappropriate.
3. Sponsorship pledges need to be paid at least 2 weeks before the conference. All pledges must be in Hong Kong Dollars (HK\$), or other currency as agreed, and made payable to the organisation designated by the conference organiser. The sponsor will be contacted regarding details of the money transfer.
4. The details of the conference packages are listed in the "Call for Sponsorship" document delivered to the sponsorship beforehand.
5. Once the sponsor's application has been secured, the sponsor is responsible to provide logos, digital graphics and/or any other details as required (e.g., the sponsor's brand name, trademarks, etc) 2 weeks before the conference. The sponsor grants to the conference the right and permission to use its name and/or logo for promotion of the event. Likewise the sponsor is granted the right and permission to use the conference name and/or logo for communications about the event.
6. For sponsorship packages that include the use of standees, please note that space may be limited. The conference will inform each sponsor of the maximum size or number of signs allowed. The conference will not be liable for damage or loss of sponsors' properties by fire, theft, accident or any other cause, by negligence or otherwise or in case of force majeure.
7. The sponsor may not sublet, assign or apportion any part of the item(s) sponsored nor represent, advertise or distribute literature or materials for the products or services of any other firm or organisation except as approved in writing by the conference.
8. To limit conference production costs, the conference organisers may limit the number of colours used to print sponsor logos and materials.
9. To minimise detritus, the conference may use electronic versions of inserts and advertisements. The sponsors will be notified in advance to be able to provide material that might be better suited to the medium used.
10. Any remaining funds from sponsorship money will be donated to the work of promoting Python and Free/Open Source Software upon completion of the conference.

Sponsorship Application Form

PyCon Hong Kong 2024:

Please review the terms and conditions of sponsorship listed above before completing and submitting this form. To expedite and streamline processes, electronic documents and transactions are utilized whenever possible. Unless specifically requested otherwise, invoices and other documents will be sent in printable PDF files.

☐ Diamond \$70,000 or above

☐ Platinum \$44,000

☐ Gold \$22,000

☐ Silver \$11,000

☐ Bronze \$6,000

☐ Custom Sponsorship (as agreed) _____

Extras: _____

Details (as agreed): _____

Repeat Sponsor Special: _____
